

## MORINGA TESTIMONIAL

I first heard about Moringa only 3 months ago from a friend who was visiting Lagos .He was recommended to try the powder and after 3 days felt so great he suggested he send me some. He told me to make sure I found a source that was fresh and guaranteed to be 100% not a cellular / other filler blend.

I located a source of true farm fresh Moringa right here in Australia that was making it in capsule form.....After some research I was totally satisfied the Moringa farm fresh was actually grown and distributed in Queensland but that their product was 100% pure...The product arrived within days, the Company were fantastic to deal with.. I followed the instructions by taking bigger doses to begin and have now settled to 3 night and morning and I have not felt this good in years. I had breast cancer some years ago and never ever really regained my energy levels until now.....I have no aches and pains, I am sleeping like a baby, I have lost weight, my skin is clear and I think I am now addicted to Moringa.

Thank you for giving me my life back.

Karen Lindley, aged 63, Sydney.
